NAICS 454210 – Vending Machine Operators

COMPANY OVERVIEW

DASA Enterprises is a veteran-led vending and micro-market provider serving federal, state, and local government agencies and high-traffic private facilities across the Washington DC–Maryland–Virginia region. We deliver modern, cashless vending solutions with a focus on uptime, responsiveness, and a health-conscious product mix tailored to each site.

CORE COMPETENCIES

- Full-service vending and micro-markets (snacks, beverages, and fresh/better-for-you options) with remote monitoring and proactive restocking.
- Turnkey program management for government and commercial facilities, including installation, maintenance, inventory, and reporting.
- Cashless payment integration (credit/debit, mobile wallet) that reduces cash-handling risk and improves user convenience.
- Site-specific planograms for hospitals, warehouses, and offices that balance employee preferences with wellness and productivity goals.

TARGET CUSTOMERS

- Federal, state, and local government buildings and campuses
- Hospitals, medical offices, and 24/7 care environments
- Warehouses, logistics hubs, and industrial facilities
- Corporate offices and high-traffic private sector sites

WHY CHOOSE DASA

When you partner with DASA Enterprises, you get more than a vending vendor. You get a mission-driven operator who treats every machine as a reflection of your organization. Our military background means we show up, follow through, and hold ourselves to a higher standard of service.

OUR COMMITMENT

- ✓ Rapid response to service calls and restocking requests
- ✓ Direct owner accountability: no call centers
- ✓ Flexible contracts tailored to your site's needs

DIFFERENTIATORS

- 20+ years managing complex, multi-site operations in the U.S. Air Force and intelligence community, applied directly to vending reliability and accountability.
- Startup agility with direct owner engagement: rapid issue resolution, customized product mixes, and flexible service models for new or under-served locations.
- Data-informed stocking and service routes that reduce outages and keep machines clean, functional, and consistently well-stocked.
- Deep familiarity with government contracting expectations, compliance standards, and performance requirements.

PAST PERFORMANCE

DASA Enterprises holds an active government vending contract, demonstrating proven ability to meet the compliance, reliability, and service standards required in regulated environments. We are experienced in government procurement processes and consistently deliver performance across contract terms.

OUR VISION

"Consistent Excellence in Vending and Customer Service"

CORPORATE DATA

HOW WE WORK

- Site Assessment**
We evaluate your facility, traffic patterns, and workforce needs to recommend the right machine mix and placement.
- Installation**
Turnkey setup with zero disruption to your operations; we handle delivery, installation, and configuration.
- Ongoing Service**
Proactive restocking, remote monitoring, and rapid on-site response keep machines stocked and running.
- Reporting & Review**
Regular performance reports and open communication ensure your program keeps improving over time.
